CELEBRATED NSXT WEEK

Purim, a minor festival of the synagogue, will be observed Wednesday evening March 3rd, and the following day in synagogue and social circles of the Jewish community. This festival is associated in the synagogue with the reading of the Book of Eather. A mirthful and at the same time semi-serious rendition of this Biblical narrative was the traditional ceremonial rite of the festival. The miraculous escape of the people of Israel from a dire fate in the Persan Empire, as told in this scriptural story, became in course of time a reflection of the very existence of the Jewish people whose lives were constantly in jeopardy. The reading of the scroll of Esther was accompanied by a quaint display of commendation and condemnation on the part of the congregation. Haman, the arch enemy of Israel was reteorically derided while Mordecai, the savior of the people, and Queen Esther ways in a mirtiful vein. In the dark-ways in a mirtiful vein was allowed the related while Mordecai, the savior of Purim served as an outlet for pent-up spirits to induige in frolic and gayety. The traditional actitude toward the feast of Purim is still relational actitude among Jewish congregations who utilize the day for social enjoyments and as a means of remembering the needy and those in distress who utilize the day for social enjoyments and as a means of remembering the needy and those in distress the needy and those in distress by sending them gift that will relative them and all advantable that while relative them and all advantable that will related them. The world wants an example of these doctrines and it is the opportunity of the church to make good along lines where the world is showing weakness. The two great enemies of the Chriswhere the world is showing weakness.

The two great enemies of the Christian church are Mohammedanism and bolshevism, the one a religion and the other a social program, but both won-deposite with the control of the c derfully slike. Mohammedanism planning the conquest of Africa, India, China and Japan, and would then control more than half the human race The danger from the bolshevist is not in his economic doctrine but on two other things—his belief that a man should do just as he pleases all the time and his laziness, for the bolshe-vist is the laziest man on earth. In laziness and licentiousness the Mo hammedan and the bolshevist show their likeness. It is the opportunity of the church to demonstrate the gosnel of work to the world. The bolshevist doctrine of working as little as possible and get-ting as much as possible is opposed to

common sense.

The Bible and the Christian religion are a propaganda of work, but the church has loafed on its job. The first thing the church should do is to learn the work of stewardship, stewardship of money, of life and it should know what is going on in the world and the world problems. Lastly, said Dr. Gal-lup, the finer kind of co-operation will produce the finer, work, and we must take every means to convince, convict and compel these enemies of the church that they must give up.
